### Why You Should Use American Block Coal in Your Kitchen Stove

Did you ever notice that when your draft is open your coal never heats the oven?  
Coal, requiring forced draft, forces the heat up the chimney instead of allowing it to circulate around the oven.  
American Block coal burns readily without draft and heats ovens at once. A quick meal saves fuel, always. A cook can save \$3.00 a month with American Block coal.

## News of Central California

### TURLOCK EXPERIENCES BIG BUILDING BOOM

Everybody. It Seems, Is Putting Up Handsome Home.

Population Will Increase 1000 Within Year, Is Confident Prediction.

TURLOCK, Nov. 26.—Turlock is experiencing a healthy building boom that looks good to the residents of this place. The town is going ahead rapidly, but without it can hardly keep pace with the country, for the residents of the Turlock irrigation district are arriving by every train from every section of the union, and they must have homes.

There is a constant stream of teams hauling lumber to the country, and the lumber merchants and those who deal in builders' hardware are reaping a harvest.

Among those country residents who have lately built or are building is Mr. Neville, who has just completed a fine home of five rooms, including the best of plumbing, a bath room, pantries and closets, with screen porches and those appliances which go to make up a comfortable home. Mr. Neville also erected a tank house, and barn 30x42, roomy enough for lots of horses, cows and a large mow for hay. Tonnell & Larson had the contract for house, barn and tank house.

J. P. Hultgren, who owns a splendid farm, tract three miles southwest of Turlock, this week completed a six room cottage and a large barn, and is getting ready to move in at once. Mr. Hultgren is a recent arrival from Michigan, and intends to start work with a good home, and will in time have one of the best places of the district. Tonnell & Larson have the contract for this work.

Charles Soderquist, who resides two and a quarter miles west of Turlock, is building a story house of eight rooms. It is of handsome architectural design and will make an attractive addition to the string of homes on the north and south road on which it fronts. Mr. Soderquist is an old time carpenter and is doing the work himself.

Plans were issued this week of a beautiful cottage to be erected for George Wall, postmaster at Blackfoot, Idaho, who will move here within the coming year. This house will be one of the handsomest in the district. This section is building up very rapidly, as there have been twelve houses erected along a stretch of a mile and a quarter from the east and west road, along the road running south, during the two years past.

In Turlock the people have been so busy building homes that one has to make the rounds nearly every day to see who has started building operations. Among those who are now building houses is John Alford, who has three cottages under construction. They are fairly, with modern conveniences such as electric lights, water and sanitary plumbing. These houses will be rented when completed, and have all been spoken for. J. I. Böhl is the contractor.

The house of A. Chatham is to be ready for occupancy by Christmas. J. I. Böhl, the contractor, has this house. The house is of nine rooms, with many conveniences. It is wired for electric lights, has plenty of roomy closets, and is a desirable home. Mr. Chatham is also having finished a large tank house, which will hold a tank of 1500 gallons. Mr. Chatham is superintending the work.

Mr. Volgt, the well known barber, has just had completed a neat cottage on Lander avenue and has moved in. The surrounding homes are handsome and this section of our city is one to be proud of.

A. S. Thompson, a prosperous farmer of the Keyes section, this week let the contract for a six room cottage to be built in the Angelus Park tract. Work will be started next week. It is probable that Mr. Thompson will also build another cottage for rent as soon as the one contracted for is completed.

S. L. Ritchey has just completed a storage warehouse at the rear of his residence on Lander avenue, where he will store much furniture for which he has no room in his store on Main street.

S. L. Ritchey, the contractor, is erecting a four room cottage for Rev. M. Kaye, pastor of the Methodist Episcopal church. This cottage is to have pantry, bath and other conveniences, and within the next week the reverend gentleman will be nicely installed in his new home, and ready to greet his many friends.

August Peterson is completing a home on Center street, in the midst of many other lovely homes. It is of four rooms, bath room and is handsomely arranged. Tonnell & Larson have the contract.

Among the builders in the Angelus Park tract is John Hays, who is having a story and one-half residence erected. This house is one of the most conveniently arranged of any in town. It is being wired for electricity, has been thoroughly plumbed, and has roomy closets, bath room, reception hall, etc. It occupies a slightly corner lot and is in a rapidly growing district. Tonnell & Larson are doing the work.

L. F. Lewis is completing a six room cottage in the Angelus Park tract. Oyer Brothers of Denair had the contract for building this cottage, which is to be occupied by Mr. Lewis within the next week. This is a conveniently arranged home and will be a distinct addition to the district in which it is built. It has many conveniences and was built with the idea of being a permanent home.

The new home being erected for Edwin Johnson on Lander avenue, one block from Main street, will be one of the neatest cottages on the street. It has six rooms and bath, pantry, roomy closets, and is of a very pretty design. Screen porches will keep out the flies, and the modern conveniences will make this a cozy home for the builder. Tonnell & Larson are the builders. They are also to build a barn for Mr. Johnson.

A new corner to Turlock is P. A. Nelson, lately of Oakland, who was unable to rent a home here, and knowing that there is no better city in the state, he decided to erect a home for his own use. He is a contractor and builder, and is doing the work. His house is to be of the latest style of architecture, and is built after a house Mr. Nelson saw the past summer at Portland, Oregon. It is unique in design, and "something different." It is being substantially erected, and when completed will have eight large rooms, reception hall, sanitary plumbing, electric lights and be modern in every respect.

P. G. Larson is having a cottage of four rooms, pantry and bath erected on Lander avenue. Though small, this will be one of the prettiest cottages in Turlock. It is piped for water and sewer, wired for electricity, and will have hot and cold water handy. The woodwork inside is to be burnished to bring out the grain of the wood, which is of Oregon pine when finished Mr. Larson will have a tidy

home. Wakefield & Peterson are the contractors.

Fred Hudberg and wife are having a beautiful home erected in the north-east part of this city. It is a neat little cottage, conveniently arranged, with a bath, reception hall, and large closets. The kitchen has every convenience so much appreciated by the housewife. The work was done by Samuel Hudberg of Merced.

G. F. Dunsmore has built a nice home in the Angelus Park tract. The cottage is of four rooms, and will make a cozy place for Mr. Dunsmore and family.

The demand for carpenters is good, although there are many carpenters in the field for business. The growth of Turlock is steady and as fast as a cottage is built it is occupied. It is a safe prediction to say that Turlock will gain a population of one thousand more people in less than a year.

The ladies of the Christian church are serving a fine Thanksgiving dinner at the tabernacle today. Turkey is the piece de resistance, accompanied by many good things.

Albert Holmquist and Otto Swanson of Julesburg, Colorado, arrived the past week and have each purchased fifty acres of land in the Spangler tract, a mile north of Turlock. It is the intention of these gentlemen to make many improvements on the land and to follow diversified farming.

Mr. and Mrs. Ernest Siem have moved into their new cottage, which was recently completed at their ranch three miles south of Turlock. This is a five room cottage, with bath and many conveniences, and was built for comfort. Wakefield & Peterson were the contractors.

**VISALIA LOSES TO BAKERSFIELD**

Neat Place Kick in Second Half Gives Southern Boys the Game.

VISALIA, Nov. 26.—A neat place kick in the last part of the second half proved the winning stroke for the High school football team this afternoon and Bakersfield won by a score of 14 to 0. The game will go down in the annals of football in this city as the greatest game ever seen on the local grounds. The Bakersfield team made three tries at the goal before the ball finally sailed between the posts.

Visalia will play the Lowell High school team on Christmas and will go to Bakersfield New Year's day.

The Dinuba High school played its third 0 to 0 game this year with Porterville this afternoon. The other teams with which it has tied are Bakersfield and Tulare.

Dinuba and Bakersfield are now tied for the championship of the inter-scholastic league. They will play the tie off within a few weeks.

### FARMERS' UNION MEETS TOMORROW

The annual meeting of the Farmers' Union of the county will be held tomorrow morning at 9:30 o'clock. Delegates will be present from each local union. Officers will be elected and other important matters are scheduled to come up.

The union is growing rapidly. According to reports new unions have

### STANISLAUS TEACHERS BACK GRAFT FIGHT

Commend Men Seeking Up-Lift of Metropolis.

Deep Sympathy Expressed for Heney and Hope for Speedy Recovery.

MODESTO, Nov. 26.—The teachers' institute of Stanislaus county, which has been in session here for the past three days, yesterday adopted the following resolutions:

"Whereas, We as teachers are vitally interested in inculcating the principles of honesty in the men and women of tomorrow, and

"Whereas, We should rejoice at any movement that makes for civic righteousness and honesty in our state, therefore, be it

"Resolved, That we express our unhesitating approval of the work of the men who have been so nobly striving to make San Francisco a cleaner and more upright city, and furthermore be it

"Resolved, That the secretary be instructed to communicate this part of our resolutions to Francis J. Heney and express our deep and sincere desire for his speedy and complete recovery of health and strength."

There were present at the institute 120 county instructors, besides the state superintendent of public instruction, and well known teachers from the two big universities, and all subscribed unanimously to the above resolutions.

Rain fell steadily here all day yesterday and by evening nearly an inch had fallen. The precipitation since Sunday amounts to about one and one-half inches, which practically insures the green feed of which the stockmen have been so much in need for some time. This rain will also soften the ground sufficient for plowing and seeding.

been organized at Escholt, Okavale, Kingsburg and Ross and Canal. The state organizer is constantly in the field, forming new locals.

### To Clean the Sink.

Every sink should be provided with a three-cornered sieve made by covering a metal frame with very fine wire netting. When water is thrown into the sink it should be turned into this sieve, which retains every particle of solid matter, preventing its getting into the pipes and causing trouble. It is also much nearer the morning the sink should be thoroughly cleaned. Dissolve a teaspoonful of Gold Dust washing powder in hot water and with a whisk broom wash the basket thoroughly; then carefully scrub every portion of the sink, pouring some of the hot suds down the pipe to loosen grease that may have gathered in the trap.

## CROUP

THERE IS NOTHING that strikes terror to the hearts of parents more than to be awakened in the night by the ringing cough which accompanies an attack of croup. The child may retire with nothing but a slight cold and a few hours later the family be aroused by the ominous symptoms. Every home where there are small children should be prepared for these sudden attacks, as prompt treatment is necessary. Do not experiment with remedies of doubtful value, but get

## CHAMBERLAIN'S COUGH REMEDY

that has been in use for nearly forty years and never known to fail.

Mr. Homer Kröhn, of Lisbon, Iowa, in a letter to the manufacturer of Chamberlain's Cough Remedy, says: "Out of the many bottles sold last winter not one was returned. We recommend it especially for children with croup. Chamberlain's Cough Remedy is famous for its prompt cures of coughs, colds and croup. When given as soon as the child becomes hoarse an attack of croup is averted. This medicine is entirely free from narcotics or injurious substances of any kind and may be given to the little ones with absolute safety."

"We guarantee every bottle of Chamberlain's Cough Remedy," says W. M. Parlin, of Port Huron, Ontario. "Out of the many bottles sold last winter not one was returned. We recommend it especially for children with croup. Chamberlain's Cough Remedy is famous for its prompt cures of coughs, colds and croup. When given as soon as the child becomes hoarse an attack of croup is averted. This medicine is entirely free from narcotics or injurious substances of any kind and may be given to the little ones with absolute safety."

Attacks of croup are most likely to occur during the early winter months, and every family with young children should be prepared for it. Keep a bottle of CHAMBERLAIN'S COUGH REMEDY in your home. It only costs a quarter, large size 50 cents. Your druggist sells it.

### The Universal Adding Machine

Prints Those Red Totals. This is positively the best adding and listing machine on the market. We can prove it, and it will not cost you a cent to have the proof made in your own office. We invite competition and do not fear comparisons. You will make a mistake if you fail to investigate the UNIVERSAL. This best is none too good for your office. L. M. Fletcher, District Sales Manager, 630 Monarch Bldg., San Francisco.

### Overcoat Thoughts

BECAUSE a coat is big and warm and roomy is no reason that it should not fit. Men sometimes think that when they get a winter overcoat that envelopes them, they are properly fitted. Not always. The drape of an overcoat should follow proper lines; shoulders must be perfect; the collar snug fitting; sleeves exactly the proper length; and all through the style must be just right.

That's the kind of overcoats we sell — Kuppenheimer Coats. You know what that name means.

They do more than keep you warm; they keep you in the height of fashion.

Two very fashionable overcoats are illustrated above — the Full Box (back-view) with its loose, roomy, perfect fitting qualities, and the Beacon Special, a "button-through" coat of extremely good form.

### NOT FEES, BUT DAMAGES

It is reported in the San Francisco Globe (which ought to know) that Henry Ach is to receive \$100,000 and Tom Doster \$50,000 for defending Ach. Rufel. What do they get it for? For exceptional genius? Ach, perhaps. Henry Ach is probably the acutest technical quibbler in California. For that skill, he could probably get \$10,000 from corporation clients, which he will not have time to earn by reason of his occupation in the Rufel trial. His time being worth \$10,000, Rufel should pay it. Double that, for indirect loss, extending beyond the time of the trial, and we have \$20,000. Double that, for the extra strenuousness of labor in this trial, and we have \$40,000. And still we are short of half the estimated fee. What is the other \$60,000 for?

Obviously, to compensate for sacrificed reputation. Henry Ach had not much reputation to lose for large-measured dignity and professional punctiliousness, but he had some. At least, his standing at the bar was such that he was hired by clients to render them legal services in a legal way. To render Rufel legal services in a legal way was worth perhaps one-fifth of what he will get. The other four-fifths is to compensate him for the permanent loss imposed on himself by the necessity, in this case, of publicly rendering illegal services in an illegal way, by violating his oath to serve justice, and deliberately obstructing justice. There are degrees of self-humiliation that can not be had cheap.

And Doster? A new lawyer, comparatively unknown in San Francisco, with his city practice still to make, but with some recent political pro-upto which opened the way to getting that practice, he finds his very first case one which definitely closes his political career and permanently lowers the standard of his prospective practice. The services he will render, measured by the price he had been getting from other people, for legal work, would be worth a few hundred, or may be a thousand or two dollars. But permanently to blight a more or less promising career is a more serious matter. It is a damage of cash value. So Rufel is paying, not fees, but damages, to his attorneys. And, considering the amount of injury, the price is cheap.

### "PUNISHMENT"

The charge of bribery against former Senator Eli Wright has been dismissed, on the ground that he can not be found, and that it would now be impossible to convict him anyway. Immediately after the case is dismissed, it is given out that Wright is in Montevideo, where he went immediately after pledging all his property to his bondsmen and skipping his bail, and that he will return at once. So the boudling senator will come back a free man and unpunished.

Unpunished? For three years this man has been a fugitive, hiding his face at the ends of the world. To escape at all he had to impoverish himself and then he had to leave his helpless family to struggle on in want, suffering for his crime. He will come back a marked man. To his dying day he will be pointed out as the man who sold his vote in the California legislature and fled to South America to escape the penitentiary. He will find the struggle for existence twice as hard as before, and may count it success if he succeeds in making a bare living for his family. He will hand down to his children only a dishonored name, which it is to be hoped they will by honorable conduct redeem; but, even if they do, he will feel that he is himself shut out from that redemption. Three years of terror and suffering, life blasted for one generation and handicapped for two; and a brand of dishonor that will outlast death—this is the "unpunished" freedom of Eli Wright!

It is punishment enough. Any criminal with the glimmer of a soul is "punished" enough, whether he keeps out of prison or not. And there is no escaping that punishment. The added punishment of the law is a safeguard of the peace and order of society, and a stern expression of human justice. The legal punishment can not be abolished. But don't congratulate the guilty man who manages to escape it. He probably has worse.

### WHERE IGNORANCE IS BLISS

That is fine sarcasm of President Van Cleave of the Manufacturers' association, in which he calls attention to the fact that Germany kept a commission of thirty-two scientific experts at work, investigating all over the world, for five years, before revising the comparatively simple German tariff, while Chairman Payne proposed to revise our much more complex tariff after three weeks of hearings, with no expert advice at all. It is a fine sarcasm, and well justified, but it will fall on deaf ears. The American people do not believe in experts. They are profoundly convinced that one man's opinion is as good as another's—or better. If a man has spent a lifetime investigating a certain subject, especially if he has done it scientifically and thoroughly, his opinion is thereby put under suspicion. His advice is not wanted, and is resented. Especially is the idea resented that such men know more about the subjects of their special knowledge than other people. The "practical man," who knows where to buy certain goods, and what to sell them at, is entitled to great respect, espe-

cially if he has made money at the transaction. But the scientific man, who knows what those goods are made of, and what processes are involved, is at best a mere useful employee; but his opinions must not be considered. Most experts are connected with universities; and therefore do not know anything. In fact, anybody who has been to school, beyond the "three R's" is under considerable suspicion, and if he stayed in school long enough to acquire special knowledge of anything, he is branded for life as an ignoramus. The proper way to select an expert horticulturist is to choose the man who delivered the most votes in his supervisorial district. Somebody's friend is ex-officio a statistician. Good fellowship is a sufficient certificate as chartered accountant. A man who has made a good mayor of Grand Rapids will therefore make a good consul at Bordeaux, especially if he knows no French and can not tell charet from port. George Knight is an ideal commander of the American navy, and George Stone ought to be the naval officer of the port of San Francisco. A bank commissioner ought not to have any experience in banking, and any good advertising solicitor, who stands in, is a competent railroad commissioner. We made a controller of the currency out of a blacksmith (and he finally learned the job) and we have had high major generals who did not know which side to buckle their swords on.

It is all democracy—the doctrine that nobody is any taller than anybody else, that nobody knows any more than anybody else, and that expert skill can be conferred by majority vote. And it is the falsest, shallowest conception—of democracy possible. It would make Thomas Jefferson turn in his grave. But it is a very common hallucination, and is, in fact, the chief obstacle to our achieving a true democracy.

### HOW DID THEY EARN IT?

"Organization, executive management and foresight"—these are the services for which the great "captains of industry" are traditionally supposed to receive their great rewards. Yet we have just had the confessions of the head men of the greatest of all the consolidated industries that they did not render any of these services. Rockefeller did not originate the oil trust—Flagler and Archbold did that. Neither, during most of his career, did he manage it. And the men who did manage it have just confessed to a complete lack of foresight. They did not anticipate any of the business conditions and opportunities which have developed, and none of the things for which they did plan have turned out right. To these men, rendering neither management, foresight nor original organization, have gone the greatest rewards the history of industry has ever known. What did they do to earn them?

Since there is probably no law under which Emmet Higgins can be required to keep out of Fresno, doubtless the best that can be done is to notify the saloon men that any person selling or giving Emmet Higgins a drink, or permitting him inside of his place, will have his license revoked instantly. And the law against carrying concealed weapons should be enforced on Emmet Higgins, whether it is enforced on any one else or not. In fact, while he is in town, there is perhaps the less reason for enforcing it on other people.

### GOVERNOR JOHNSON WILL VISIT CALIFORNIA

LOS ANGELES, Nov. 26.—Governor John A. Johnson of Minnesota has written Dr. Rudolph Schiffman of Pasadena, saying that he has decided to avail himself of his repeated invitations to visit Southern California and while he is en route will visit this section. The governor will come to take his easy, he says in the letter. Governor Johnson and Dr. Schiffman are long time friends.

### Rear Admiral Dies

PHILADELPHIA, Nov. 26.—Rear Admiral Alex. Russell, U. S. N., retired, died here today from heart failure, aged 84 years.

## "PAID IN FULL" IS GREAT PLAY

Strong, Scenes Firmly Grip Emotions.

Written By Californian and Role of Wife Created By Fresno Girl.

"Paid in Full," which played a Thanksgiving matinee and evening performance to appreciative audiences at the Barton yesterday, has been given a full review in these columns on a previous performance and a reiteration of facts is not necessary. But it is difficult to refrain from saying that it is the best play Fresno has seen not only this season but in many seasons, and makes one proud that its author is a Californian, Eugene Walter. Another reason why Fresnoans are interested in the play and its success is that Lillian Albertson, a former Fresno girl, created the role of Emma Brooks. While, of course, it was a disappointment not to see her in the role, choice of an actress to play this part could not have fallen more fortunately for the public than upon Miss Sara Perry, who has been here before in another play with E. H. Morgan as the star, in which she was well remembered.

Every one of the seven roles had an individuality and strength that was tremendously interesting and all the players were vastly capable. One had almost forgotten there could be such a good play given, so long have we had to be content with indifferent ones and plays of a sort that had nothing to recommend them save a glitter and sparkle that was more than half rubbed off before crossing the Rockies.

"Paid in Full" is a sermon, but it is not preachy. This sounds like a difference without a distinction. You get the sermon yourself without having it thrust in your ears by tiresome repetition of a text that the author wants to make emphatic.

There are a few fine touches in this Walter play that were especially impressive. For instance, it seems a most subtle device to connect the thread of the play by letting the curtain fall upon a man standing at the telephone ringing up another man. Then to have the next curtain rise upon the man receiving the message at the telephone or rather a girl, and before anyone has said a word and immediately you are right into the thick of the plot without any tiresome readjustment of your mental forces.

How many in the audience were ready to grasp the hand of the Captain—old weatherbeaten old seafaring man who was for the best of his life to his rooms to seek her husband's pardon. The working out of this scene was a tremendously fine bit of art and was exquisitely handled by Miss Perry and Mr. Morgan. The slow tempo in which the whole thing worked was a test of the power of the play and the skill of the actors.

The audience was unusually sympathetic and patiently attentive during long scenes and to add to the brilliancy of the production, the number of Thanksgivings theater parties.

### TAKES GUN FROM EMMETT RIGGINS

Slayer of Dean Endeavors to Create Disturbance at Barton and Is Thrown Out.

Emmett Higgins, the contractor who shot and killed a man by the name of Dean and who was later acquitted of the charge of murder, endeavored to create a disturbance at the Barton opera house last night when a semi-intoxicated condition. An usher threatened to throw him out several times, but this apparently had no effect on Higgins.

In a seemingly careless way he allowed a gun which he was carrying to drop to the floor several times and it was finally taken from him by A. I. Kress, Acting Sergeant Cronkrite was called and put the man out of the house lest he should become ugly and create an unpleasant disturbance. Higgins returned to Fresno several weeks ago and has been drinking a good deal.

### RUSSIANS ENGAGE IN FISTIC BATTLE

Russiatown was the scene of a lively melee last night when six or eight Russians, filled with Thanksgiving cheer, proceeded to thrash each other in the streets at E and Venice streets. A call was sent in to the police station and Officers McCall, Johnson and Correll responded, placing three of the fighters, Henry Jacobs, Mike Huel and William Legler, under arrest. Each man was pretty well battered up and had been dragged quite a distance by some of the others.

### Disobey Court Order

Sam Petersen, a vag who was given a suspended sixty-day sentence if he would get out of town within an hour, was picked up by Officer Johnson last night and now faces a term in the county jail. Petersen was trying to hide from Johnson when he was caught.

### SHERMAN INDIANS WIN FROM ST. VINCENTS

Saints Fought Hard to Tie Score of Fast Redskins.

LOS ANGELES, Nov. 26.—The Sherman Indians won a desperate football battle from the St. Vincent college team of this city today by a score of 4 to 0. The first half was without result and for a time it seemed that the game was going to end in a tie. The Indians, however, forced the ball dangerously near the local goal, only to be carried back by the superior weight of the Saints. Three times in the first St. Vincent tried to kick a goal and failed. Boland, quarterback for the Indians, played like a demon, and saved the day on several occasions for the Red men. In the middle of the second half the Indians kicked a goal and later had the ball on the five yard line, but lost it on a fumble. The field was very slippery, several of the men were injured during the game, but none seriously enough to necessitate their withdrawal.

### Immigration Steamer Launched

SAN FRANCISCO, Nov. 26.—The new immigration steamer "Inspector" was launched by the United Engineering Works in Alameda today. The craft was christened by Miss Elmore Knapp, daughter of Congressman Joseph W. Knapp. It will be used on the bay in the interests of the local immigration bureau.

### PURPLE COLORS TRIUMPH OVER GOLD RELAY TEAM

Return Race Will Be Held This Afternoon at 3 o'clock—Baracas

Not content with the close victory scored by the local Y. M. C. A. relay team, carrying the purple colors yesterday morning over the gold team, the losers want a return match with their junior opponents this afternoon. The second race between the rival athletes will therefore be under way at 3 o'clock today.

Yesterday's event was started at 10 o'clock from the association building on North I street, with Ray Wakefield as captain of the Purples and F. Everts of the Golds. The respective captains were the first ones off the line, and the contest was a close one, the pair running two blocks along I street to Fresno. From Fresno two other boys raced. In running foot and each with their colors flying from a small pole. From the end of the two blocks of the second mile, two other juniors went along Tulare to M, along M to Stanislaus, Stanislaus to L and finished in front of the association building. Pottle of the Purples ran the last two blocks against Teller of the Golds, Pottle winning by about the foot.

The Golds contend that the close finish indicates that they are on an equal footing with the Purples and they want another try. This will be given them this afternoon. Quite a large crowd watched the juniors' event and a still larger crowd should be in attendance today.

Wilson Hopkins held the watch, the time being 6:50, which is exceedingly fast for eighteen blocks. John Fee started the boys at exactly 10:06. Harpe Evans followed the runners on horseback to see that the rules of the course were complied with.

Twenty-four were entered, but as it was thought the rain of the night before would necessitate a postponement of the event, only eighteen juniors appeared in costume, ready for the start. For wanted to call off the race, but as the boys were anxious for the run, they were sent off at the appointed hour, nine on each side.

The time and the relative positions of the men were: Purples—Ray Wakefield, captain; Mills, Gilliam, Bolton, Thorberg, Waldron, Moore, Moody and Pottle. Golds—F. Everts, captain; Epstein, Hammond, Dickey, Brown, Johnson, Goth, Craft and Teller.

Big Race Off.  
The captains of the Reds and Blues decided to call off their relay race over a longer course until Christmas morning.

Fast Indoor Game.  
Yesterday morning at 10 o'clock a picked indoor baseball club won a close and exciting game from the Baracas, recording the first defeat of the season for Fehle's aggregation of losers. The game was a pitchers' battle throughout. Sig Lay pulled off several one-handed catches in left field for the Scrubs.

The line-up follows:  
Baracas. Scrubs.  
Fechter ..... P. Wakefield  
Peterson ..... Waller  
Jack ..... L. Long  
Sampson ..... 2b. Andrews  
Mifflin ..... 3b. Bush  
Ashton ..... cf. Harriman  
Ellithorpe ..... lf. Pallen  
Budge ..... if. Levy

No Classes Today.  
Owing to the entertainment at the association building tonight and the relay race this afternoon, it was decided to hold no classes on the gymnasium floor today.

Kansas Defeats Missouri  
KANSAS CITY, Nov. 26.—Kansas decisively eleven again this afternoon defeated Missouri university 10 to 4 in one of the fiercest struggles ever put up by these teams in the eighteen years of their contests.

### DON ENRIQUE WINS THE BIG HANDICAP

Two Horses from Ellison Stable in Money.

Dorante, Favorite, Second and Royal Tourist Third—60 to 1 Shot Wins.

OAKLAND, Cal., Nov. 26.—In the presence of over 10,000 people, Don Enrique, carrying the colors of Charles Ellison, won the Thanksgiving handicap at Emeryville today. Dorante, the favorite, was second, while Royal Tourist, stable companion of the winner, was third. Weather conditions were ideal, but the track was heavy. Some fine fields went to the post and the sport was of a high order. Twenty-six books were in line and betting was very heavy. The handicap, fourth on the card, was at a mile and a furlong and six horses faced Starter Dwyer.

Dorante ruled favorite throughout the betting with Montgomery and Tony Faust, the Hildreth entry, next in demand. Don Enrique and Royal Tourist came in for some support. Tony Faust went to the front early and did not relinquish the lead until a quarter mile from home.

There Don Enrique, who had moved up rapidly, assumed command. He drew away and won handsily from Dorante, which beat Royal Tourist a head. The latter would have been second but for being in heavy going.

Montgomery was out-run. The winner's share of the purse was \$1800. Results: First race—Five and half furlongs, purse: \$200. 1st, 7 to 1, won: Matchless, 108 (Miller), 11 to 1, second; Palo Alto, 112 (Walsh), 18 to 1, third. Time, 1:18-5. Rosema, Jones, Rose, Osea, High Ormonde, Marchesa, Incentive, Smiling Jack, Whoa and Obey also ran.

Second race—Six furlongs, selling: Mike Asheim, 110 (Walsh), 60 to 1, won; Elevation, 114 (Lynch), 6 to 1, second; Prestige, 117 (Buxton), 4 to 1, third. Time, 1:16-5. Warden Yell, Nappa and Volodya also ran.

Third race—Furlong race, purse: \$200. 1st, 12 to 1, won: Rosema, 112 (Miller), 4 to 1, second; Collector Jessup, 110 (Keogh), 10 to 1, third. Time, 1:10-3-5. Rosevale, Import and Boggs also ran.

Fourth race—Mile and a furlong, Thanksgiving handicap, \$2000 added: Don Enrique, 112 (C. Butler), 18 to 1, won; Dorante, 115 (W. Miller), 7 to 1, second; Royal Tourist, 114 (A. Walsh), 15 to 1, third. Time, 1:54-1-5. Montgomery, Tony Faust and As-tronator also ran.

Don Enrique and Royal Tourist, Ellison entry, were coupled in betting.

Fifth race—Mile and a quarter, selling—Fulleton, 105 (Taphin), 20 to 1, won; Lady Alicia, 107 (Russell), 5 to 1, second; Nadzu, 102 (Sullivan), 7 to 1, third. Time, 2:10. County Clerk, Tolmound and Cloverland also ran.

Sixth race—Six furlongs, selling: Wap, 110 (Keogh), 4 to 1, won; Von Tromp, 117 (Miller), 5 to 1, second; Lord Provost, 109 (Coburn), 7 to 1, third. Time, 1:16-1-5. Calla, Sun-voke and Wooten, also ran.

### CORNELL SUFFERS FIRST DEFEAT OF THE SEASON

Pennsylvania Claims Equal Honors With Harvard for 1908.

PHILADELPHIA, Nov. 26.—The University of Pennsylvania defeated Cornell in the annual Thanksgiving football game on Franklin field this afternoon, 17 to 4.

Pennsylvania thus closed the season without once drinking from the bitter cup of defeat, and tonight her football team ranked at least equal rank with Harvard in the wide discussion as to which is the best college football team in the East. It was Cornell's only defeat of the year and she fought hard to win.

Pennsylvania did not overwhelm her opponent as she expected. However except for the kicking department in the first half, Pennsylvania at all times was Cornell's superior. The game abounded in open plays, long runs and quick punting.

The play of Miller, who replaced Keath at quarterback for Pennsylvania early in the game, was the sensational feature of the contest. Once he got away for a 75 yard run which was spoiled by one of his teammates in a tackle and another time he holding a touchdown after a 45 yard run following a fake attempt at making a forward pass.

KID KRANT KNOCKS OUT LARRY GORDON

TONOPAH, Nev., 26.—In a whirlwind fight here this afternoon Kid Krant of Seattle knocked out Larry Gordon of Butte, Mont., in the thirteenth of a scheduled 25 round battle before a large crowd.

CLEVER WIFE Know How to Keep Peace in Family.

It is quite significant, the number of persons who get well of the alarming heart trouble when they let up on coffee and use Postum as the beverage at meals.

There is nothing surprising about it, however, because the harmful alkaloid in coffee—caffeine—is not present in Postum, which is made of clean, hard wheat.

"Two years ago I was having so much trouble with my heart," writes a lady in Washington, "that at times I felt quite alarmed. My husband took me to a specialist to have my heart examined."

"The doctor said he could find no organic trouble but said my heart was irritable from some food I had been accustomed to eat, and asked me to try and remember what disagreed with me."

"I remembered that coffee always soured on my stomach and caused me trouble from palpitation of the heart. So I stopped coffee and began to use Postum. I have had no further trouble since."

"A neighbor of ours, an old man, was so irritable from drinking coffee that his wife wanted him to drink Postum. This made him very angry, but his wife secured some Postum and made it carefully according to directions."

"He drank the Postum and did not know the difference, and is still using it to his lasting benefit. He tells his wife that the coffee is better than it used to be, so she smiles with him and keeps peace in the family by serving Postum instead of coffee."

"There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pks.

of Trout in Three Streams  
of the County.

Former Game Warden Ferguson has received from State Fish and Game Commission a letter explaining the results of the investigation of the stocking of waters with food fish. The letter states that the commission has been unable to find any native species of trout in the three streams of the county.

The letter also states that the commission has been unable to find any native species of trout in the three streams of the county.

The letter also states that the commission has been unable to find any native species of trout in the three streams of the county.

The letter also states that the commission has been unable to find any native species of trout in the three streams of the county.

The letter also states that the commission has been unable to find any native species of trout in the three streams of the county.

Mr. Vogelzang writes further to say that he saw more crappie, bluegill sunfish and yellow perch in the markets of Chicago, St. Louis, Louisville, Nashville, Baltimore and Washington in February last year than any other fish water fishes. "The wonder is," says he, "that if Green and Barren rivers are so wonderfully prolific and the fish are in such quantities that they do not appear in the markets. The fish that we have seen in February last year have been taken from more or less relation to the ones mentioned by you. All were carefully considered and the decision was made in favor of those that have since been received. You may not be aware that the same fish are taken from different waters throughout the United States, depending upon the locality."

The letter also states that the commission has been unable to find any native species of trout in the three streams of the county.

The letter also states that the commission has been unable to find any native species of trout in the three streams of the county.

Game Warden Ferguson added some of more particular local application, saying that for its field of operations the California commission has done more practical work than almost any other state commission for the amount of money at its command. But for the California commission, Fresno county, which is considered by sportsmen one of the best trout water fishing territories in the far west, is a fact not so generally known because the fishery stretches are so inaccessible, would have only three fishing streams, the south and middle forks of the Kings and Fish creeks, near the Sierra Nevada line, and these only with the sporadic trout which is a native of the mountain streams. Through the efforts of the commission the Loch Leven trout of Scotland, the German brown trout and the eastern species in varieties have been introduced and fishery streams stocked, while countless millions have been propagated and distributed to replenish fished-out streams or to stock those that never had fish.

According to former Game Warden Ferguson, Fresno county is a shining example of what can be done in the line of propagating fish and stocking waters until 100 streams and lakes formed by them are populated by many denizens that once were unknown here. The water sheds of the San Joaquin and the Kings, whose sources are in the mountains of Fresno county, present a grand stretch of fishing waters.

Talking about suggestions, Mr. Ferguson said there have been suggestions that time and again that local streams should be stocked with the pickerel, which has been termed the "fresh water shark," than which there is no more game fish.

"Let loose your pickerels in the streams of Fresno," said Ferguson, "and once the season opens, the pickerel would soon prey on the trout that there would soon be none left after the work and expense of years in stocking with trout."

DESPERATI OF MADERA  
CAN'T GIVE \$10,000 BONDS  
After Sentence to San Quentin for Five  
Years for Stealing Miller & Lux  
Stock.

Former Chief of Police John F. White returned yesterday from Madera and reported that E. Desperati is still confined in the county jail of Madera unable to obtain another bond of \$10,000 after sentence for grand larceny. Desperati is an Italian rancher, well known also in this county. He was sentenced last Monday by Judge Covert of Kings county to imprisonment at San Quentin for five years. Desperati was the leading member of the gang in Madera county which raided the nearby cattle ranches of Miller & Lux in the county and at Dos Palos colony in Merced county, driving off before the last spring round-up a large number of cattle and mules. Desperati was the man as shown who received the stolen property and was the medium through which sales were made, after the appearance of the stolen stock had been changed by underfeeding and hard traveling from place to place and in the change of the brands on the flanks. Growing out of the wholesale thievery, a lot of civil cases were recently disposed of before Judge Austin for recovery of stolen animals with changed brands traced to purchases in this county from Desperati. The prisoner was recently collected on a memorable second trial and in Madera before Judge Covert setting for Judge Conley.

We have done well for our boys—now for our girls!

Answers Every Call.

Fresno People Have Found That This Is True.

A cold, a strain, a sudden wrench. A little cause may hurt the kidneys. Spells of backache often follow. Or some irregularity of the urine. A certain remedy for such attacks. A medicine that answers every call. Is Doan's Kidney Pills, a true specific. Many Fresno people rely on it. Here is Fresno proof.

Daniel Brown, 132 N. St., Fresno, Calif., says: "I suffered from attacks of backache and severe pains over my hip for several years, the trouble I believe being brought on by a strain. At times the attacks were very severe and I was frequently compelled to lay off from work for a week or so at a time. When suffering from a severe spell I learned of Doan's Kidney Pills and deciding to give them a trial, procured a box at Baker and Colson's Drug Store. They acted exactly as represented, and in a short time vanished every symptom of my trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## SMALL AUDIENCE TO HEAR MURPHY

Speaker Alludes to Recent Trip  
About City.

Many Pledges Secured as Result of Tour, Declared Temperance Advocate.

There was only a partly filled house at the St. Paul's M. E. church, South, last night to hear Tom Murphy, the temperance speaker. The speaker, however, did not seem to mind the small audience, and in the course of his remarks, Murphy alluded to his recent trip to the various cities of the state and declared that he had secured many pledges for abstinence from an economic point of view and gave many stories from real life to illustrate his point.

After his speech he again went about seeking pledges and many went forward and took the pledge.

Following the speech, Francis Murphy, Jr., was unable to sing last night and it is not expected that he will be heard in Fresno again. He is now under the care of a local physician.

Tom Murphy is making arrangements for a big mass meeting to be held next Sunday afternoon in the court house park, where at may be given an opportunity to hear and speak with him. Murphy is also planning to visit Fresno again.

## SELMA AND SANGER SCHOOLS PLAY TIE

Temperance Town Eleven Has Better of  
Hard-Fought Battle.

(Special to The Republican). SELMA, Nov. 26.—The Selma and Sanger high school football teams played a tie game on the high school grounds here this afternoon. Each team scored a touchdown, the visitors making one at the last of the first half while Selma made one in the first half. Both teams failed in kicking a goal, leaving the final score 5 to 5.

Although Selma had to divide the honors of the game in the second half and the fact playing in the second half reminded the spectators of the excellent work of the undefeated Selma Invictibles of a few years ago. Sanger had the better of the first half. The game throughout was a clean one, and full of a most friendly spirit between the players and marked by only two or three off-side plays and fouls.

Sanger made its best gains by diving over Selma's guard and tackle, the gains coming barely enough to make their yardage in the first half, while the few times they held the ball in the second half generally lost them the ball on down.

Vincent, as Selma's half, proved the hardest player for his team and made

Don't Neglect That Kidney and Bladder Trouble when K. R. R. will cure you. The best remedy on earth for kidney and bladder trouble. At Smith Bros' Drug Store.

Ladies' night at Oddfellows' hall, Monday, November 26th, 1928. Program, social banquet. Members of Fresno Lodge No. 184 and their families and sojourning brothers invited.

# RACING

# FOREIGN CAR, WITH WAGNER AT WHEEL, WINS BIG RACE

## New Record Is Set for Auto Racing, Winning Machine Averaging 65 Miles Per Hour on Fast Track

Wagner, Wagner, Wagner," cried the crowd, as, pitching down the stretch, the

Wagner drove a remarkably steady race. He stopped several times for supplies and once seemed to be in serious trouble right in front of the grandstand. Something was wrong beneath the car, and he crawled under the car, and crawled back under the car.

Wheeler the mechanic plunged in. A jiffy he was through. Wagner in the meantime had been pouring gasoline in to one tank with his right hand and lubricating oil into another with his left. He then gave the car a few turns of the lead in 12 of the 16 laps of the race and gave it to Nasarrou, whose troubles were to come later.

In winning this grand prize race of the Automobile Club of America over the Belmont race track, Wagner set a new record for road racing. He covered the course of 160 miles in 4 hours, 19 minutes and 33 seconds. He had won the last cup race of 258 miles last month, setting the mark at 4:14 miles an hour. Today

the longer distance of 402 miles was necessary by Wagner for an average of 65.5 miles an hour. He averaged 25 minutes to each one of the 16 laps when measured 25.13 miles. His fastest lap was made in 21.59 but the lap honors of the day went to De Palma, at the wheel of No. 18, which twice made the mile in 11.35, an average of about 70 miles an hour.

From the moment the race got fairly under way it developed into a battle between the foreign cars. The American racers seemed unable to stand the pace

**CARLISLE INDIANS WIN  
FROM ST. LOUIS ELEVEN**

ST. LOUIS, Nov. 26.—A hard fought football game between the Carlisle Indians and St. Louis University teams was played here today.

the day was won by the former, 11-0. The contest was slow, but interesting. The Indians, being forced to uncover their best line of tricks to win over the stubborn defense of the St. Louis linemen. A crowd of 18,000 or more watched the players, the occasion being favored by perfect weather conditions.

Throughout the first half the Indians eleven played sterling football. Three out of four times the Indians were

In the first part of the second half, however, Carlisle played the St. Louis men off their feet. Series of plays were mixed up with brilliant forward passes gave two touch downs early and thereafter the visitors went on the defense. Three times St. Louis had chances to score at goals from the field, but all the at-

tempts failed and shirts in the lineup did no good.

The tag army will be after you on Saturday.
